INSTALLATION INSTRUCTION

SMART TOILET SEAT

Steps

1 Remove existing toilet seat. Keep removed seat cover and fixing screws for possible future use.

2 Place fixing plate on installation holes using the provided installation help. The displayed pin points down. Tighten the nuts.

3 Align seat cover with fixing plate and push it in until you hear a click.

4 If not installed properly the first time, press the disassembly button to disassemble and reinstall.

5 Close water supply valve and remove hose.

6 Install provided three-way valve.

with filter system:

7 Install water filter and reconnect water hose.

8 Connect provided hose from filter to toilet seat. Open water supply valve.

without filter system:

7 Reconnect water hose and connect provided hose..

8 Reconnect hose to toilet seat. Open water supply valve.
